**ENGINEERING/ATTORNEY/FINANCIAL ADVISOR**

The South Street project is complete. There are just a few punch list items to be taken care of. The crosswalk signals are working but need some fine tuning.

**South Street/Kruczek Change Order** – This is Change Order #2, for an increase of \$4,595.33. It is not included in Pay Request #3. A MOTION WAS MADE BY Trustee Schmiechen and second by Trustee Birr to approve Change Order #2 for \$4,595.33 as recommended by our Engineer. The final assessment roll will be ready and can be put on this year's tax roll.

**Tree replacement on South Street** – Tree replacement was not part of the project. A decision should be made as to whether to replace trees on the tree border. Kory wants the Board to be aware that there are a lot of utilities in the tree border. There are places that a tree could not be planted on. It is better not to have trees around the school zone. A MOTION WAS MADE BY Trustee Ninmann and second by Trustee Miller to deny replacing trees on the tree border on South Street. All Members – aye – motion carried.

**Street Construction for North Main Street in 2018** – The Finance Committee met and reviewed two estimates put together by Kory. Section 1 would be doing the work from the Cemetery to Sleepy Hollow Road. It would be street work, curb, gutter and sidewalk. The Section 2 would be the same work but extending it past Sleepy Hollow on the proposed property to be annexed. That would require borrowing an estimated \$500,000. We should have Capital Improvement funds to do Section 1. The Finance Committee recommends doing the work proposed in Section 1. Kory is asking the Board to decide if he should start preparing for this project. A MOTION WAS MADE BY Trustee Ninmann and second by Trustee Birr to move forward with plans as proposed in Section 1. All Members – aye – motion carried.

**Sheet Metal Specialties Building Expansion Permit Requirements** – Ben Agnew was present to represent Sheet Metal. He is the general contractor hired by the owner, Bill Aski for

this project. This has been in the plans since last spring. Kory recently received drawings for drainage. The parcel is not a rectangle shape. There is a small linear frontage on Steel Road for access to the property. They plan to swap parcels with a neighboring property owner, WB Enterprises to give them more frontage. They have nothing to present for approval at this meeting. The property exchange needs to be done by Certified Survey Map(CSM) and Board approval. This could be done at the October 11<sup>th</sup> meeting. Sheet Metal has been granted an early start for foundation and footings. MSA is the engineering firm and is working with Grothman. Grothman & Associates is working on the CSM. Ben Agnew stated that Grothman could not get it done by Oct 11<sup>th</sup>. A special meeting could be held if they are willing to pay the fee of \$540 for the special meeting. The storm water/erosion control plans have not been submitted. A DNR WPDES permit approval is needed and not yet received. Ben Agnew wants to get a building permit and start building. Occupancy would be contingent upon all the outstanding issues being resolved. He is under contract to have the building operational by December. He is not asking the Board to go against due process. A MOTION WAS MADE BY Trustee Miller and second by Trustee Robbins to allow a building permit to be issued before all the required plans are submitted and approved and to hold occupancy approval until they are completed. Roll call vote was taken with Trustees Gould, Robbins and Miller – yes. Trustees Birr, Schmiechen, Ninmann and Slotten – no. Motion denied.

Kory will look into the plans for Hometown Park that were started a few years ago. General Engineering will still honor the commitment they made at the time of the original plans.
